### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The claimed invention overcomes the rejection as set forth in the Examiner's Answer for the reason as set forth by the Decision by the Board of Patent Appeals dated 04/28/04.

Furthermore, the newly discovered reference Samson U.S. Patent 4,819,616 disclosed a housing in the form of a seashell (see Fig. 1) with a sound producing system.

However, Samson utilizes a timer to turn on and off the sound system and does not teach the use of any type of switch or sensor for activating the sound system after and only after lifting the housing. Although the use of a gravity switch is known in the art, there is no reasonable motivation to combine the known switch to the device of Samson.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
